Applicant's response of 7-30-02 has been entered. Currently claims 8-12,20,22,23,26 are pending. The examiner will address applicant's arguments at the end of this office action.

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 20,22, are rejected under 35 U.S.C. 103(a) as being unpatentable over Yeo (5533990). Yeo discloses the invention substantially as claimed. Yeo does not disclose the claimed length for the string. Yeo discloses a length of up to 8 inches for the string. It would have been obvious to one of ordinary skill in the art at the time the invention was made to make the string of Yeo 9 inches in length or even 11 inches in length to provide more string for the user to grasp and manipulate during removal of the tampon. In the event the tampon is inserted further up the vaginal canal than intended, this would ensure that enough string remained outside the body to allow the user to effectively grasp to remove the tampon.

3. Claims 8-12,23,26 are allowed.

4. Applicant's arguments filed 7-30-02 with respect to claims 20,22 have been fully considered but they are not persuasive. Applicant has argued that there is no motivation to modify the article of Yeo as set forth by the examiner. This is not

Art Unit: 3761

addressing the motivation set forth by the examiner and is not addressing the rejection of record. The argument is non-persuasive.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
